

## Looking for peace and happiness in your life?

The Holy Qur'an, the *complete code of life*, is a Divine *miracle* across space and time. Hundreds of thousands of people, including small children, have memorized this book from cover to cover. Not a single word or letter in the Qur'an has been changed in the last **14 centuries!**

The Holy Qur'an mentions facts regarding the creation of the *universe*, the embryonic development of a *human being*, the movement of the sun and the moon in orbit and other scientific facts which were not known to mankind at the time of its revelation. This proves that it is a direct word of God Almighty, Who not only has complete knowledge of everything, but is the very source of all knowledge.

In *God Almighty's final message* to mankind, God reveals the true *purpose of life* and gives a standard of *morality* for all of humanity. Those who submit to the Creator according to this book are commanded to demonstrate *honesty, trustworthiness, sincerity, good intention, patience and perseverance, truthfulness, piety and righteousness, reliance, uprightness, steadfastness, motivation for good deeds, obedience, courtesy, mercy, tolerance, diversity, modesty and moderation, simplicity, repentance and forgiveness, selflessness, charity and community service, supplication and devotion, fear of accountability, strong belief and a positive attitude* toward humanity. By acting according to these ideals, humans strive for complete success in this world and in the *everlasting world* in the Hereafter!

The human heart has *hidden treasures of extraordinary jewels*. If found and applied, ordinary people on the street can become *means of guidance* to their communities, *fountains of light* for those lost in the dark, and *upholders of justice and mercy*, making the world a cradle of learning and illuminating the very nature of the universe with Divine knowledge.
